

TXOMIN BISBAU

Engineering student in mechatronic and robotic systems

07 82 08 01 66

txominmateobisbau@gmail.com

6 chemin Kanpaina,

64210 Arbonne, France

PROFIL

Entrepreneurial student in the 5th year of an engineering school in mechatronics and robotics. I combine skills in mechanics, electronics, and programming. Passionate about innovation, I seek to contribute to ambitious technical projects.

Interests

Bike : daily commutes

Rugby : 2x per week

Muay Thai : 3x per week

Scuba diving : Level 1 - FFESSM

Running : weekend

Reading: novels, personal development

Soft Skills

Teamwork

Time management

Independent

Curious

Adaptability

Certifications

Prévention Sup' – INRS (2026)

Drone Remote Pilot (A1/A3) – DGAC/EASA (2026)

Aeronautical Initiation certificate (2019)

Formation

- 2023- *SeaTech, Engineering School of the University of Toulon*
Engineering degree in Mechatronic and Robotic Systems (SYSMER) - Creativity & Innovation option
Master RISE (Intelligent Robotics and Embedded Systems)
Double degree: training pursued in parallel with the engineering curriculum
- 2021-2023 Preparatory Classes for Grandes Écoles (CPGE), Poitiers
Tracks MPSI (Mathematics, Physics, Engineering Science) & MP (Mathematics, Physics)
- 2018-2021 *Cantau high school, Anglet*
General Baccalaureate: mathematics, physics-chemistry, and biology - advanced mathematics and Basque language options
- 2018-2019 Aeronautical Initiation Certificate, Anglet
Studies of aeronautical principles, meteorology, navigation and air regulations, history of aeronautics. Accompanied flight (1h)

Experience

Professional background

- 2026 - Student Internship (5 months)
Herca Réseaux, Bidart
Development of industrial automation systems and human-machine interfaces
- 2025 - Student Internship (4 months)
Solectric Asia, Bangkok
Engineering applied to drone technologies: technical support, solution design, and customer interaction
- 2024 - Seasonal work (2 months)
Intermarché, Bidart
Shelf stocking and inventory management
- 2024 - Worker Internship (6 weeks)
Lauak Aeronautique, Hasparren
Manufacturing and machining in an aeronautical industrial environment
- 2019-2021 - Seasonal work
Mindurry Déménagement, Biarritz
Movements and deliveries

Professional skills

Languages

- French : Native language
- English : Fluent (TOEIC : 845)
- Spanish : Bases
- Basque : Bases

Projects & commitments

- 2025
Climate workshop activities
Management of awareness workshops (Fresque du climat, 2tonnes) for groups of 7 to 14 students
- 2024-2025
Participation in various hackathons
Design and development of innovative projects in teams in intensive formats (24-48 hours)
- 2023-2026
Participation in the Dassault UAV Challenge
Complete design of a tilt-rotor tricopter drone; president of the Aerotech association
- 2020-2021
Astronomy Workshop
Observations, photographs, and analyses of deep sky

Software

CATIA V5 Solidworks Fusion 360
Abaqus Libre Office QGroundControl
Mission Planner DroneDeploy Cloud
Compare Matlab Simulink ADISRA

Programming languages

Python C C++ C#
